RE: Training at the Foyer 26th January 2011

Louise and Charmaine,

I would like to thank you for coming to The Foyer on 26th January, to talk about your service and how you can provide training and better education for our young people residing here.

I am very pleased with the outcome also, as already I believe you signed up 9 young people and even offered to support under 18 yr olds (if another service cannot?). I would like us to be able to work together professionally and have a fantastic working relationship encouraging more and younger people to sign up and complete training to better their lives and futures.

I would like to invite your team here every 3-4 months discussing all training and work options available for their future and how to better their lives etc. Of course in the mean time we (The Foyer and Bromford support teams) will refer young people to your training unit in the hope they will also sign up and better their lives.

Please do not hesitate to contact me for any up and coming (new) training and funding etc.

Yours,

Matt Woollard
